Dialysis Access Symposium 2015 (DAS2015)

It is great honor and pleasure to inform that the Dialysis Access Symposium 2015 which will take place in Seoul, Korea on June 12 (Fri) - 14 (Sun), 2015.

The aim of the symposium is to provide comprehensive coverage of the field of dialysis access in ESRD patients, with a focus on the issues that are most relevant in daily clinical practice. The symposium has two main objectives: to give dialysis access professionals from various countries the opportunity to share their experiences, and to provide beginners the basic education concerning dialysis access care. Therefore, clinical nephrologists interested in dialysis access care and aspiring interventionalists as well as dialysis access professionals are welcome to join this symposium.

In the scientific program, the basic dialysis access education will be organized in separate rooms including hands-on sessions with patients concerning vascular access monitoring and duplex ultrasonographic surveillance, and video presentations. We are also planning free communications and posters.

We look forward to your interest and active participation.
